Burn virtually, hotter and longer !

Burn hotter and longer compare than mangrove charcoal, intense heat without refueling for hours. Stability heating power, suitable for many cooking variations.

Equal size, easy to adjust the usage portion

Suitable for compact mini bbq grill like Sichirin, easy to adjust the amount of charcoal depends on usage.

No spark or flame

The pillow shape create more effective paths between the briquette pile for the air to flow through, and more air mean more oxygen, resulting in a more efficient lightning phase.
